Fabric composed of vegetable fibers processed in such a way as to have resistance and breathability similar to animal skin. The fabric is composed of 45% post-consumer recycled polyester textile bases, plus 25% polyurethane from cereal processing and 30% water-based polyurethane. Clima is a fabric characterized by a high content of vegetable and recycled raw materials and is totally cruelty free.
Solvents and PVC free. Made in Italy.

Esprit

Calligaris uses leather which comes from the finest part of the European ox skin (the core) cut in different thicknesses depending on the requests and then tanned. The external finish is obtained by using water based colours. Thickness 1 mm.

Feel

Top-quality full-grain aniline leather and an entirely natural product, which is barrel-dyed and finished, and frame-dried. The completely natural characteristics of this leather, such as its silky grain and finish, is due to this process. The same process makes the leather subject to variations in colour and wear and tear over time, and these features add to the aesthetic appeal of the bed. This item is 0,9 - 1,1 thick.
