MAGNIFLEX

Don't sleep more. Sleep better to live longer.

|| Marco Magni

President
Owner

Each of us recognizes
the **magical power**
of an excellent
night's sleep

Resting well is the very foundation of a healthy life, not just a matter of pleasure. That's why **Magniflex** always strives to utilize its extensive experience to serve sleep by creating excellent products that deliver the highest quality comfort and well-being.

OUR PHILOSOPHY

We are the Made in Italy that wakes up with you every morning.

|| Marco Magni

President
Owner

The Magniflex philosophy is based on four key values: excellence in rest, the importance of well-being, a drive for innovation, and environmental protection.

These values have a deep connection with Tuscany, which is an important region for Magniflex. It is where the brand originated and began shaping its history. There is a profound bond with the territory that seems almost prophetic, considering the shared affinity for creating **wellness**.

Over the course of 60 years, Magniflex has cultivated a passion for research and made significant investments in innovation, design, and the development of state-of-the-art manufacturing systems. As a result, Magniflex has become a universally recognized synonym for comfort and wellbeing. Throughout its journey, Magniflex has helped 40 million people achieve better sleep through its solutions and models designed to meet the needs of comfort, relaxation, and health.

Over the course of 60 years, the passion for research and the important investment in innovation, in design and in state-of-the-art production systems have turn the name of Magniflex into the universal **synonym of comfort and wellbeing.**

When I think
about our story,
my heart takes me
back to Grandma
Ada.

|| Alessandro Magni

CEO
Owner

1962

**60 years
of success**

Magniflex's story began 60 years ago in a small workshop in Prato. Since then, we have been waking up by your side every new dawn, spreading our presence all around the world.

1962

The company was founded. The year of the first box-spring mattress. First sponsorship of "Giro d'Italia".

1965

The Magniflex trademark was officially registered.

1978

The Dormir trademark was officially registered.

1983

Wins the "Giro d'Italia".

1984

Creation of the Relaxsan collection.

1986

The vacuum-packed mattress technology was patented.

1987

Successful entry to the large scale retail trade.

1988

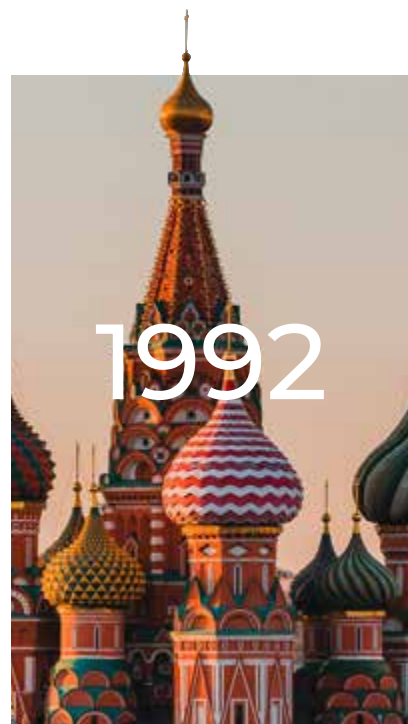

The company achieved an impressive production output of 1,000 mattresses manufactured per day.

1991

The cooperation with Pierre Cardin begins.

Pierre Cardin

Control of the Russian market.

1992

1994

Control of the market in Germany, Spain and UK.

1996

Beginnig of the collaboration with Japan.

1997

The new Waterlattice vacuum applied technology is patented. Creation of the Materassi&Materassi collection. The first flagship store was opened.

Materassi&Materassi

1999

Control of the Turkish market.

2000

The first mattress with a removable lining and the first mattress in Memoform were created.

2001

The old manufacturing plant was struck by a fire.

2002

The new 30,000 square meter manufacturing plant was inaugurated, and Alessanderx S.p.A was incorporated. Production soared to 10,000 mattresses per day.

2005

Magniflex successfully broadens its presence in the Libyan and Bulgarian markets.

2006

Market control in Dubai, Cyprus and Ukraine. Release of the first Golden Fiber mattress. Launch of the Dual Core technology.

2007

The Geoethic brand is born.

Geoethic

2008

Operations in the U.S officially open.

2009

Beginning of the cooperation with the Tonino Lamborghini collection. The Company successfully accesses the markets of Canada, India, the Czech Republic and Albania.

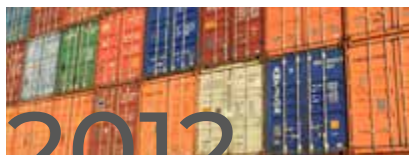

2010

Market control in Singapore, South Africa, Kosovo, Australia, Kazakhstan and Philippines. Social commitment through "Pensare Oltre".

2011

Entry into the Greek and Chinese markets.

2012

Market Control in Indonesia, Saudi Arabia and Slovakia. Presence in 80 countries with over 110 one-brand stores.

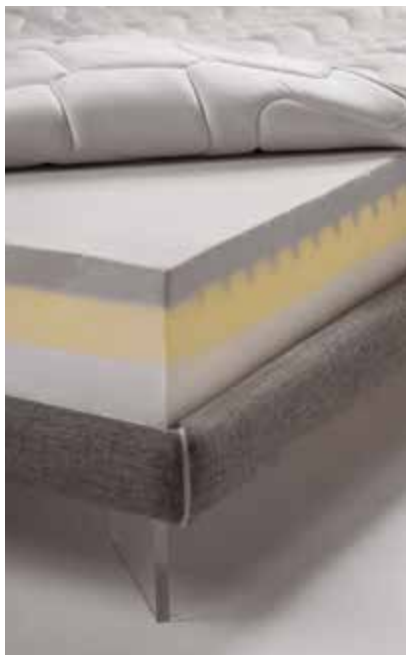

2013

Opening of the showrooms in Bangalore, Rome, Bratislava, Osaka, Shanghai, Riyadh, Skopje, Beijing, Dongguan and Miami. Strategic expansion to Greece and Algeria.

2014

Our business expands to include Poland, North Macedonia, the Dominican Republic, and Colombia. Distribution of our products in 85 countries.

2015

Launch of Smartech. Launch of MagniStretch. Distribution to 90 countries. Strategic expansion to Serbia, Turkey and Kirghizistan.

2016

Opening of showrooms in Medellin and Accra.

2017

Opening of showroom in Santo Domingo.

2018

Launch Aquabreeze material. Magniflex exports its products to 98 countries.

2019

Initial commitment to SDGS.

2020

Launch of the MagniProtect technology.

2022

Launch of the MagniCool technology marks a significant milestone of 60 years in business, dedicated to providing comfort, wellness, and delightful awakenings to our customers.

The strength of the family is the real driving force behind our enterprise.

Today the company is present worldwide with more than 4.000 retailers in 99 international markets and is the supplier of more than 500 great hotels.

With a young and determined management at the helm, the brand continues its development along the path laid out by President Giuliano Magni. They skillfully navigate an entrepreneurial system deeply rooted in the local community while simultaneously driving global expansion.

|| Alessandro Magni

CEO
Owner

500+

Our products include mattresses, bedbases, pillows and relaxation accessories.

500+

Countless hotels and accommodation facilities turn to Magniflex for their furnishing requirements.

40

Millions of customers worldwide.

60

Decades of history under our belt.

10.000

Mattresses produced every day.

4.000

A widespread network of retailers around the globe.

|| **Fabrizio Magni**

Production Director
Owner

I have only
seen certain
wonders
in our land.

MAGNIFLEX TUSCANY

Magniflex was born in Tuscany, a region blessed by nature, where beautiful landscapes have always inspired artists and innovators. This natural beauty has also had a positive impact on our business culture, as we strive to help people wake up refreshed worldwide. We believe that our work is a form of art.

MAGNIFLEX

We have always been inspired by the beauty and the great minds of Tuscany.

|| Fabrizio Magni

Production Director
Owner

It must be difficult to contain one's pride when fortunate enough to be born in a land blessed with lush nature and in a region that has inspired the arts, fostering some of the most admired expressions of ingenuity in the world, such as Leonardo da Vinci's.

It is therefore not surprising that this same ingenuity has been applied to the art of sleeping. In 1986, Giuliano Magni designed and patented the vacuum packaging system for mattresses, reducing their volume by 90%. This intuition revolutionized the product handling system while also contributing to the reduction of air pollution.

**Magniflex has
always worked
in the name of
environmental
responsibility.**

The entire production process of Magniflex is designed with a strong focus on supporting sustainability. The company has successfully reduced CO2 emissions by implementing solar photovoltaic panels and introducing the patented vacuum packaging system. This innovative system enables the handling of 13 mattresses at once instead of only 3, resulting in fewer trucks on the road. Our unwavering ecological commitment is further demonstrated by our certifications, such as OEKO-TEX® for the absence of toxic substances and GOTS for the utilization of 100% organic fabrics.

Believe in what you
do. Show respect for
what you believe in

We work in the middle
of our hills. We could
never do anything to
harm them.

|| **Fabrizio Magni**

Production Director
Owner

We have a
dream we
want to see
come true.
Or rather,
17 of them.

SUSTAINABILITY

Magniflex has adhered to the ambitious **Sustainable Development Goals** project of the **United Nations**, which aims at achieving **17 goals by 2030**. These 17 objectives are considered essential to ensure a better and more sustainable future for all inhabitants of planet Earth.

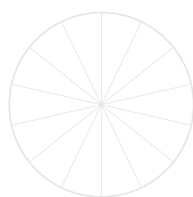

MAGNIFLEX

SPORT

Learn from
sports.
Always give
your best, do it
with passion.

Magniflex loves sports because physical well-being is the company's mission.

In the 80's, the company was the **sponsor of the Giro d'Italia** and since then, the close link between high quality sleep and healthy living has been acknowledged. Our passion for sports has become our motto in the game of good rest: **a match that goes on stage every night.**

We have always been in favor of a healthy lifestyle.

Over the years, Magniflex has supported many players of the **Italian National Rugby team**, who are examples of performance and sportsmanship. These athletes have become testimonials of the quality that our Company puts into every product. In 2016, this philosophy led us to partner with the Italian and international sports legend: **Gianluigi Buffon**. In the biennium 2017-18, we partnered with the Italian National Soccer Team, supplying them with mattresses and pillows for the **Federal Soccer Center** in Coverciano. But our endeavors alongside prominent athletes from the world of sports don't stop there. In 2021, Magniflex became the National Partner of the Volleyball

Nations League, a competition reserved for **National Volleyball teams** created in 2018. It is a tangible sign of the strong bond between the brand and a healthy lifestyle, and a statement to the interest we have in advocating a culture of quality sleep. Who could we choose other than European Soccer Champ **Giorgio Chiellini** to continue the relationship that has tied Magniflex to the world of sports for decades? **He is the Captain of the Italian National Soccer team** that won the last European Championship and a Tuscan native, allowing us to link the name of the company with the place where everything first started. **It is a strong, rooted binomial made of wholesome principles and hard work.**

MAGNIFLEX

|| Giorgio Chiellini

Italian Football Champion

Magniflex and I, defending the same values.

Giorgio Chiellini shares
Magniflex's mission:
striving passionately
every day to support
Italian talent
throughout the world.

SPORT

Respect, work, love for what
you do, and a constant will
to improve – these are the
ingredients that helped our
companies and the Tuscan
champion reach the most
ambitious goals. Together, we
can continue to dream about
even more incredible goals.

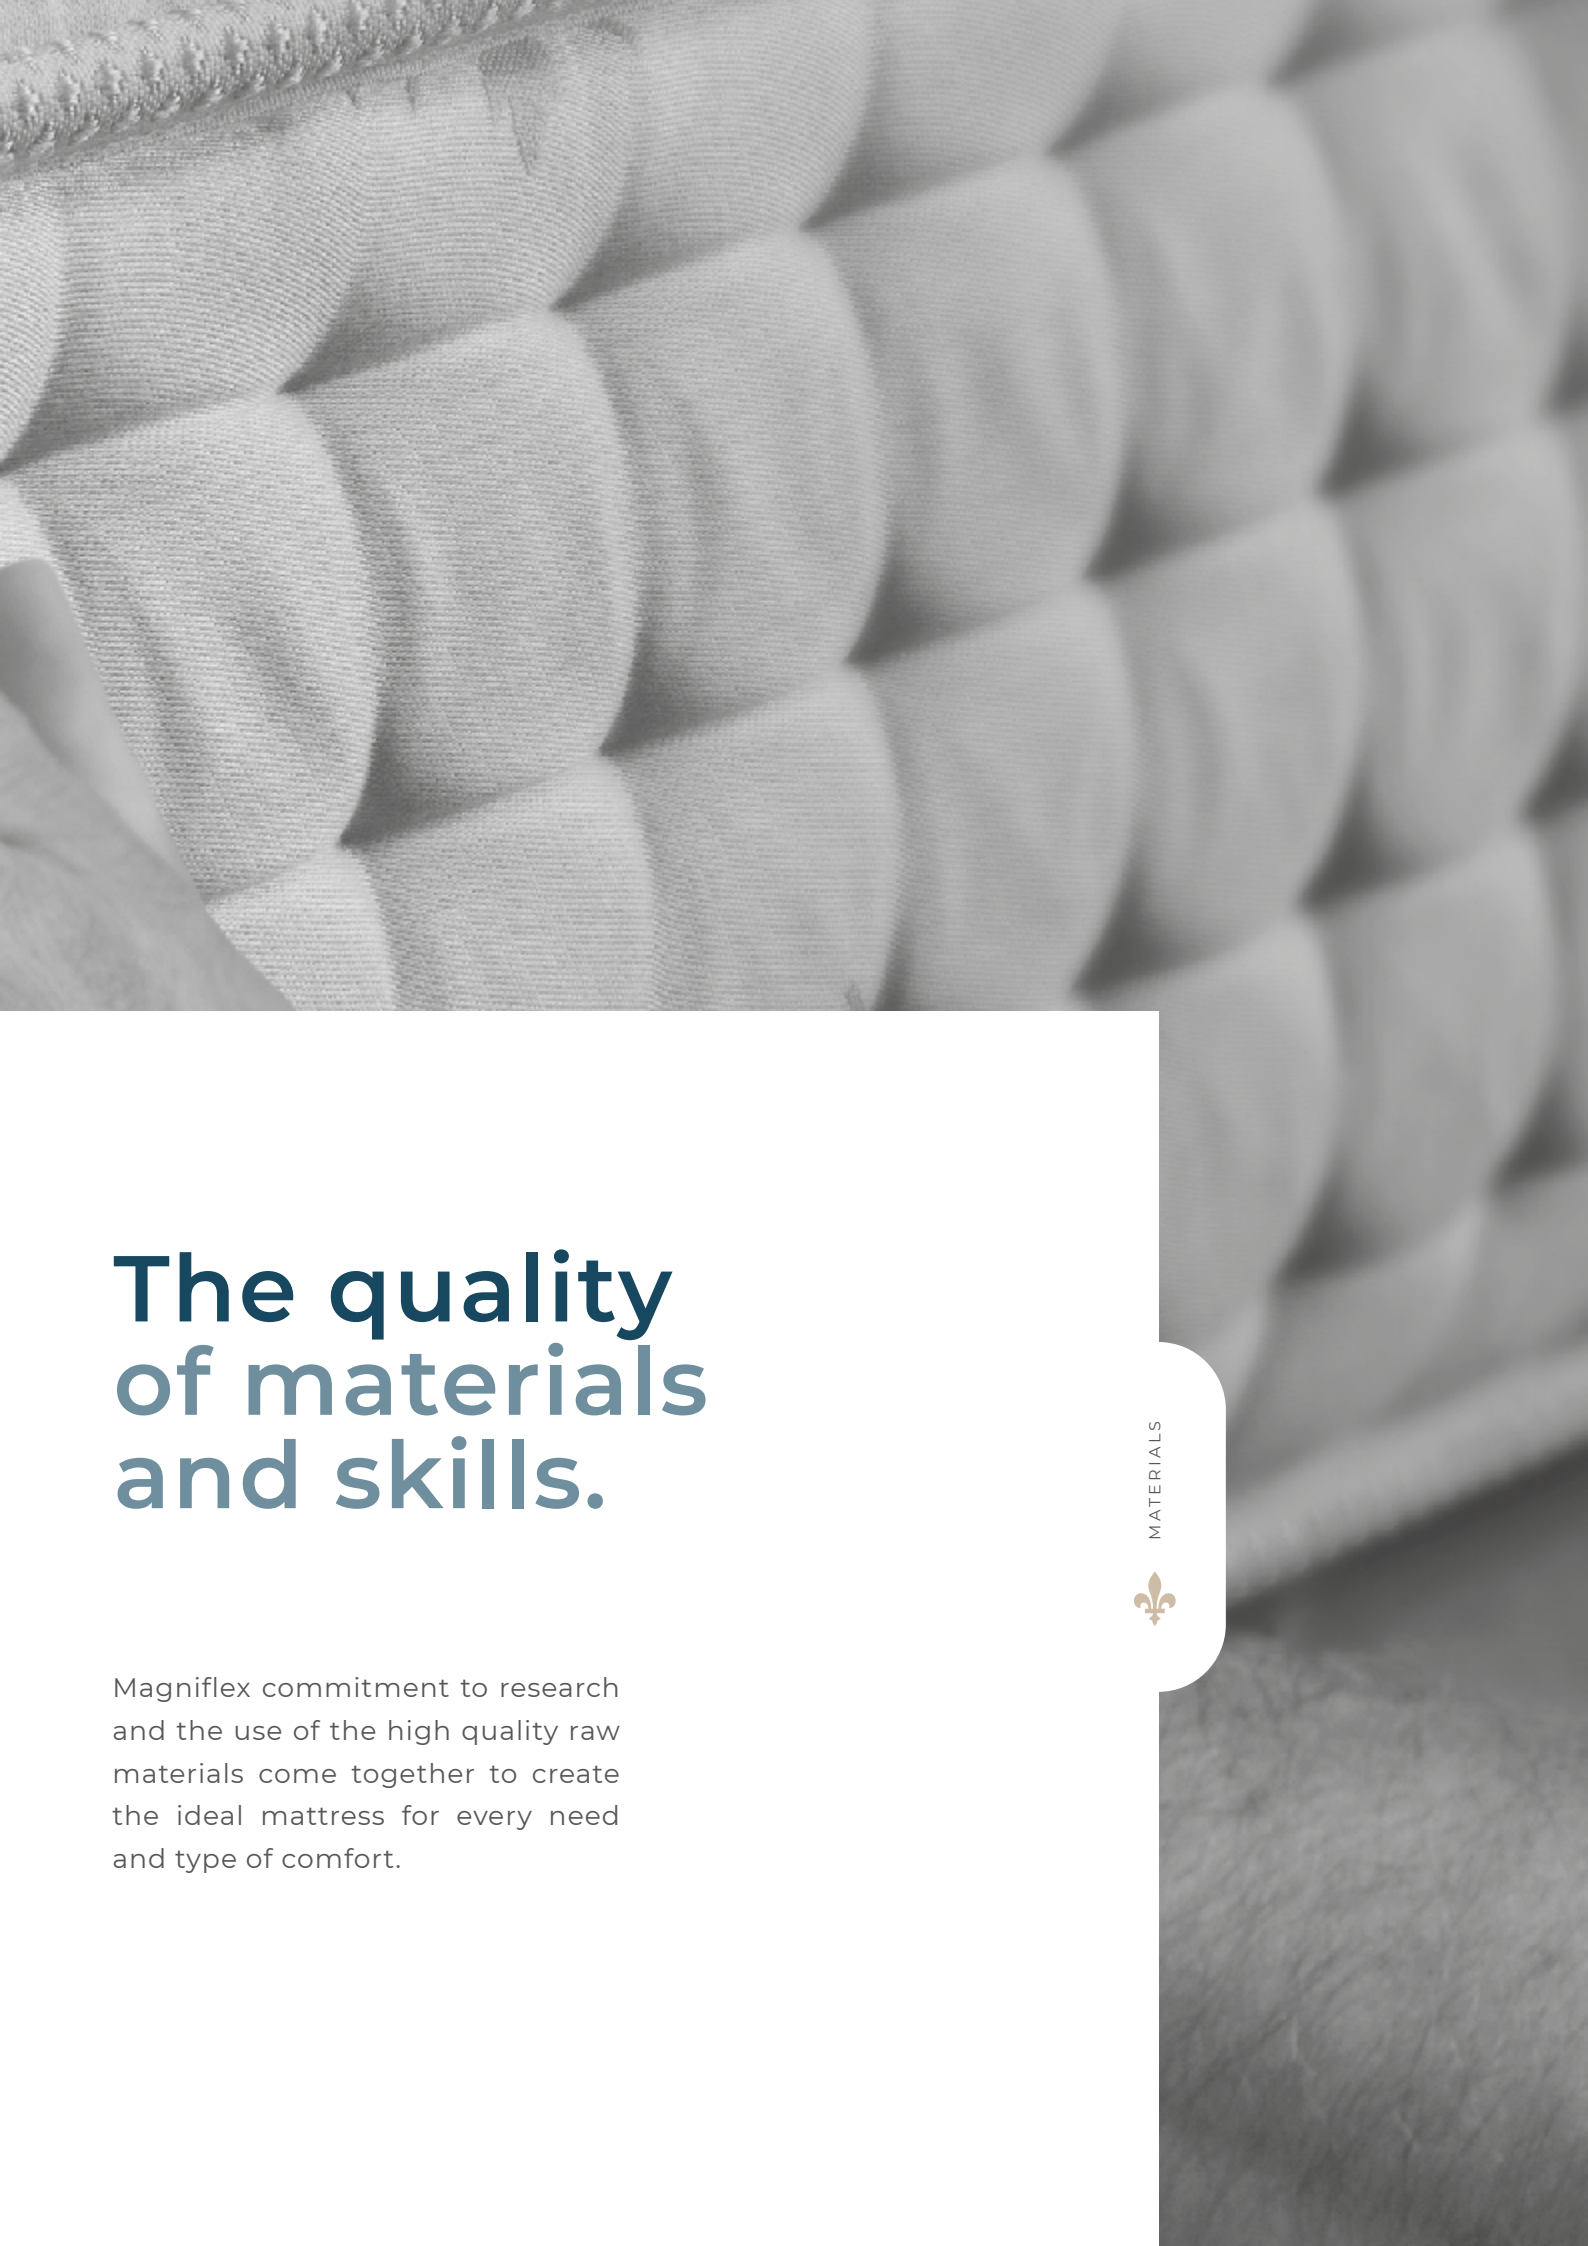

Magniflex is a synonym of excellence.

The company's products have always been characterized by the real added value offered to the clients - the quality. This is possible because Magniflex uses 100% Italian materials and employs the skills of specialized technicians of more than 180 professionals that work side by side sharing their passion and know-how.

Your awakening, the heart of our mattresses.

Magniflex knows the different needs of a quality sleep, which is why it offers differentiated solutions that are sure to meet every need, thanks to the use of special and non-deformable materials. All materials are OEKO-TEX®-certified, which stands as a guarantee that they are free from substances that are toxic or harmful for man and the environment.

The quality of materials and skills.

Magniflex commitment to research and the use of the high quality raw materials come together to create the ideal mattress for every need and type of comfort.

MATERIALS

Memoform

Memoform

Is the most **anatomical** of all the materials we use in production and is designed to react to the weight of the body and to adapt perfectly to any type of build.

How it works

- + Creates a **zero-gravity space between the shape of your body and the mattress**, precisely adapting to the pressure applied by the body.
- + Composed of high-density open cells that **favor the passage of air inside the mattress**.

Benefits

- + **It adapts to a person's build**, thus ensuring that **no pressure points are formed**.
- + Sensation of **comfort**.
- + Favoring **ideal blood circulation**.
- + **Prevents bothersome pains** in the morning.
- + It is **sensitive to the pressure** applied by the body, **but not to heat**.
- + There are **no hot areas or with different comfort levels** during the night.
- + The special open-cell structure **ensures greater hygiene**.
- + **No sensations of depression or sinking while on the mattress**. The body is free to move during the night.
- + **Rapidly regains its original shape**.

Compare it with other Memory foam mattresses

Magnigel

Its **high density** makes it extraordinarily **soft** and comfortable, **ensuring perfect support for the whole body**. The internal **3D structure** of Magnigel has been designed to ensure an **increased breathability and stabilize the mattress temperature**, eliminating bacteria caused by perspiration.

Aquabreeze

Innovative **high-density, water-based foam** that is **incredibly flexible**. Its open-cell structure allows for easy air circulation, ensuring **optimal dispersion of body heat**. It is both **flexible** and extremely **comfortable**.

MagniFoam

This **foam**, with a **high-density** micro-cellular structure, offers **optimal support, elasticity and breathability**. It is available in two versions: a softer Magnifoam **Eliosoft**, and a more rigid Magnifoam **Elioform**, to meet every customer's specific needs when it comes to sleep quality.

Memosoft

Memosoft is an **anatomical** and **cozy** material. It soothes the body by providing a maximum **comfort**, ensuring the feeling of **remarkable softness**. Coupled with layers in Memoform, Eliosoft or Elioform, it offers an even more delicate support. Indulge yourself in a sleeping experience that is truly unparalleled.

Pocket Springs

The **pocket springs** inserted in Magniflex mattresses are made of **tempered steel 2.2**, a material that ensures both **flexibility** and **resistance** to deformation. To ensure optimal use of a mattress with springs, a sturdy support is essential, such as the one provided by bed bases with slats.

Boxed Springs

Traditional springs made of flexible and resilient **hardened** steel provide **ergonomic support**, ensuring that your spine receives the correct support it needs.

Super Soft fiber

The **Super Soft Fiber** padding possesses exceptional qualities of **softness** and **breathability**. Its unique composition offers a remarkable sense of well-being and enhances the perception of comfort during sleep. This fiber ensures a **gentle and enveloping support** for the entire body.

Mallow

Mallow has anti-inflammatory, calming and soothing properties. Which is why Magniflex has created a material that would enhance these effects, essentially creating a source of well-being for the nervous system. The layer infused with mallow extracts offers a soft, **comfortable**, and **relaxing support**.

Linen

Linen is the most suitable **fiber for the summer-side padding** of your mattress. Thanks to its molecular structure, linen is able to **absorb and dissipate the moisture** released by the body during sleep. It offers a comfortable feeling of freshness and a refined pleasure consistently night after night.

Silk

Silk is the **thinnest and most robust natural fiber**. It resists deformation while remaining soft and pleasant to the touch. It is also an **excellent insulator** that keeps you **warm in the winter** and **cool in the summer**.

Wool

Merino wool is one of the **finest animal fibers** obtained from shearing the best wool sheep. It is extremely thin and **soft to the touch**, and it possesses strong **thermoregulatory and breathable properties** that allow your skin to breathe freely.

Cashmere

Cashmere is a **remarkably soft** animal fiber known for its exceptional **ability to retain air**. When used in our products, it provides a **high level of thermal insulation**, effectively retaining heat when needed. Additionally, cashmere has the ability to resist dirt, particularly dust.

NATURAL INNER MATERIALS

The most advanced technology to provide superior quality rest

Magniflex is always looking for solutions that improve the quality of sleep.

OUTLAST® is a **thermoregulatory fabric that was originally applied to the astronauts' space suits.** The **technology** enclosed inside employs phase change materials, meaning there are **millions of spheres** made with a **special wax that melts at a temperature of 36 degrees.**

As soon as the body temperature starts to rise, the technology goes into action, absorbing the excess heat. When the temperature starts to fall, the balls inside the material consolidate and release the accumulated heat. This helps maintain a constant and **ideal temperature, promoting better sleep quality.**

Registered trademark of the Space Foundation, an affiliate of the Space & Astronautics Museum. Patented Outlast® Phase Change Technology is recognized by NASA as a Certified Space Technology.

A full-page background image of an astronaut in a white space suit floating in space, with the Earth's horizon and clouds visible below.

Outlast®

How it works

Thermoregulatory fabric that was originally applied to the astronauts' space suits.

Absorbs excess heat by storing it inside millions of microcapsules.

The stored-up heat is released automatically when the temperature of your body drops.

Benefits

Reduces the amount of **sweat loss** each night by an average of **50%**.

Eliminates sudden temperature changes.

Constant body temperature, and **maximum performance** when you **wake up in the morning.**

MagniProtect

How it works

- + An exclusive combination of **vesicle** and **silver technology** effectively keeps the mattress fabric free from harmful viruses and bacteria, including **Coronavirus**.

Destroys up to 99% of bacteria in just a few minutes.

- + The **technology** of **vesicles** **targets viruses wrapped in lipids**, helping to **rapidly destroy** the virus.

- + **Silver technology** targets both **bacteria and viruses** and **effectively disarms them by inhibiting replication**.

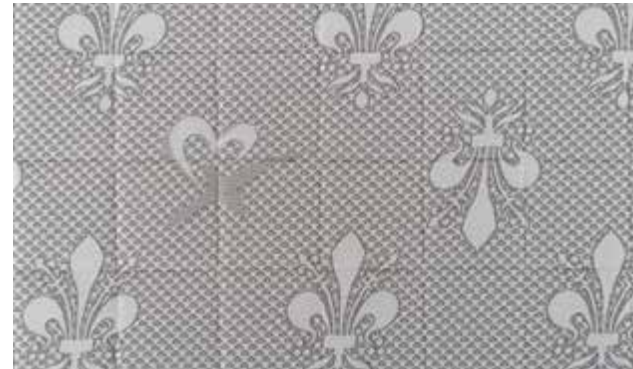

Benefits

- + **Protects the fabrics** from the reproduction of **contaminating viruses**.
- + **Reduces the potential transmission of pathogens** to a bare minimum.

3D Fabric

It is a special **3D tech fabric** with **high breathability** characteristics that helps reduce the mattresses internal moisture to a minimum, neutralizing smells, and mold formation, for **top-notch hygiene levels**.

Satin Viscose

This material combines the properties of **viscose**, which is soft and silky to the touch, with the qualities of **satin**, a yarn that has a shiny and elegant appearance. The viscose satin lining also has an excellent ability to dissipate moisture from the mattress.

Viscose

Derived from cellulose, **viscose** is a soft **high-tech fiber** with a **silky** texture that is very pleasant to the touch. It possesses an excellent ability to dissipate moisture, promoting the perspiration of mattresses and pillows.

Innovation is
the ability to
surprise oneself
before anyone else.

The most effective research is
the one that never rests.

From the invention of vacuum transport that revolutionized the entire industry to our most recent innovations that have become a benchmark for all industry operators, **Magniflex leads the evolution of rest.**

Vacuum-packaging

The **Magni-branded revolution reduced pollution and transportation**, cutting volumes by 90 percent. It is a pivotal change that has set new standards of service and sustainability.

Dual Core

Different types of comfort can be modulated within a **single double mattress** to meet the **different needs** of couples.

MagniCool

Dreams lulled by a gentle **breeze even during** the hottest nights characterizing the MagniCool collection which is **inspired by the coolness of ice and the softness of clouds** providing **refreshment for both the mind and body.**

MagniStretch

This **innovative mattress** was developed in collaboration with the Department of Mechanical Engineering at the University of Zaragoza. The special patented **board** with tilted sections exploits the body's pressure, **stretching the spine.**

CERTIFIED WELLNESS

The top trade association in the United States has certified the beneficial effect of the MagniStretch mattress.

Developed in collaboration with the Department of Mechanical Engineering at the University of Zaragoza.

MagniStretch is an exclusive Magniflex patent designed to provide exceptional comfort and benefits to your back.

MagniStretch

MagniStretch technology allows you to stretch your back and prolong the sensation of wellness.

MagniStretch technology elongates the body and stretches the back from the lumbar area toward the neck and feet. Body weight is distributed and the **space between the vertebrae is increased**. For an **awakening full of energy and vitality**.

How it works

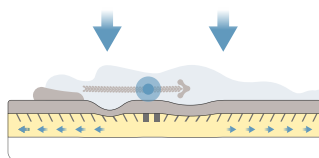

- + This special mattress utilizes the pressure exerted by the body to distribute weight evenly across the mattress.
- + The tilted boards move in opposite directions.
- + Gently stretches the body and spine, from the lower back to the neck and feet.

Benefits

- + Differentiated support zones.
- + Spine stretching.
- + Patented.
- + Helps release muscle tension and contractions.

1

THE PERSON'S BODY WEIGHT MOVES THE TILTED SECTIONS IN OPPOSITE DIRECTIONS.

2

STRETCHES THE BODY AND RELAXES THE BACK. THE SPACE BETWEEN THE VERTEBRAE INCREASED.

3

HELPS RELIEVE MUSCLE TENSION AND IMPROVES CIRCULATION.

Dual Core

Dual Core Technology provides personalized comfort to each partner.

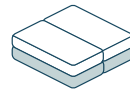

Each individual has a unique body build, which influences the type of support and level of firmness they seek in a mattress.

Dual Core is Magniflex's solution to this requirement, offering an innovative system for sharing a mattress with your partner without any need for compromise.

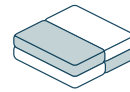

How it works

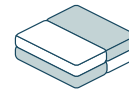

- + Two **separate, flip-over inner boards** offer up to **4 combinations of different** comfort levels depending on the desired support. There's a **soft side**, for a **gentler**, more **enveloping** support and a **firm side**, for a **sturdier** type of support.

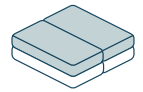

SOFT – SOFT

SOFT – FIRM

FIRM – SOFT

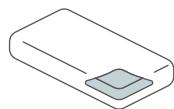

FIRM – FIRM

Benefits

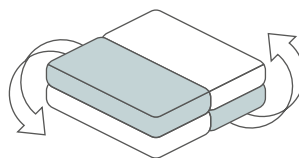

- + **Meets the needs of couples.**
- + Ensures the **optimal health of your back and spine.**

MagniCool

Does the heat bother you at night?

The innovative **MagniCool** fabric delivers a unique sensation of **coolness**, akin to a gentle breeze, providing a soft and refreshing awakening that resembles lying on a fluffy cloud.

How it works

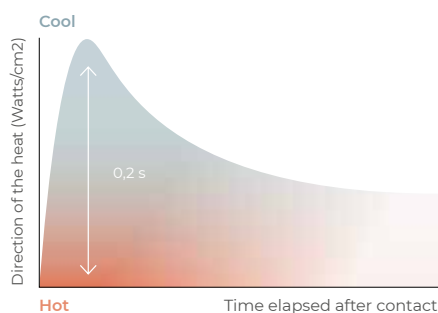

- + Thousands of **micro-particles** of silicate materials distributed among the fibers are **guaranteed to effectively lower the temperature**.
- + Instant feeling of **freshness on contact with the skin**.

Benefits

- + Falling **asleep easier**.
- + **Uninterrupted sleep** cycles.
- + **Increased metabolism**.
- + **Moisture dissipation** for an always cool and dry rest.
- + **Temperature regulation**.

Q-MAX TEST

- + **Method for evaluating the instant freshness** sensation **of a fabric**.
- + The test **measures the maximum heat loss** (expressed in Watts/cm2) **that occurs** when the **skin makes contact** with the **fabric**.
- + The **higher the value**, the **greater the perceived freshness**.

Vacuum-packaging

A revolution that
took the air out of
every mattress.

Our continuous **research** and **passion** for nature led to the **development of our vacuum packaging technology in 1986**. This **Made in Magniflex innovation** has **revolutionized the world of mattresses**.

How it works

- + The mattress is **bagged** and **sealed**.
- + **The product** is then **compressed** through a patented machine, **a process that does not affect the perceived comfort**.
- + Using a mechanism inside the machine, **the mattress is rolled up**.
- + **Volume was reduced by 90%** due to air elimination.

Benefits

- + Ensures the perfect **maintenance** of the mattress' **superior hygiene** and **quality** standard.
- 🌿 **13 mattresses per m3**, instead of the 3 normally packed using the traditional method, **resulting in lower CO2 emissions**.

Airyform

How it works

- + Machining is carried out with an **extremely high-precision and high-tech machine**.
- + The **board is perforated from side to side** creating **differentiated support zones**.

Benefits

- + **Maximum breathability** of the mattress board and **flawless moisture and heat dispersion**.
- + **Constant air recirculation** enables proper **heat exchange between** the board, **fabrics**, and **body**.
- + Dedicated support for the head, shoulders, back, legs, and ankles. **Divides and balances weight in each area of the body**.

Massaging effect

How it works

- + **Ultra-high-precision laser-cut processing** that **shapes the material** while **leaving** its **performance unchanged**.
- + **Wave formation** that produces a “**massage effect**” during the night.

Benefits

- + The **special massaging** effect **regenerates** the body's microcirculation thanks to its constant **action during rest**.
- + **Differentiated support** for the head, shoulders, back, legs and ankles to ensure **optimal comfort to every part of your body**.

CERTIFICATIONS

Magniflex has achieved impressive results, but we never stop perfecting ourselves.

We prioritize maximum safety, ensuring that every technological breakthrough undergoes rigorous testing and obtains renowned certifications before being made available to the public.

The most
effective research
is the one that never
takes a break to rest.

ACA

Who certifies

- + One of the major trade associations of chiropractors in the United States.

What they certify

- + All the benefits of the MagniStretch mattress in terms of back stretching.

SUSTAINABLE LOGISTICS

What they certify

- + Care for the environment is achieved by applying combined vacuum packaging transport logistics (road and railway).

Plus

- + Reduction of CO2 emissions by more than 45,100 kg in 2015.

MADE IN ITALY

What they certify

- + All design and manufacturing processes and the sourcing of raw materials take place in Italy.

Plus

- + Compliance with the highest quality standards and promotion of Italy's valuable craftsmanship and cultural heritage.

16CFR1632-33, BS EN 597, IIM

What they certify

- + Fireproof products that comply with current laws and regulations regarding consumer protection.

Plus

- + Reduction of the risk of fires and harmful consequences for consumers.

CE MEDICAL DEVICE

What they certify

- + Product manufactured in accordance with EU Regulation 745/2017 on medical devices.

Plus

- + Allows us to include the costs of manufacturing these products among the annual tax deductions.

UNIFI

What they certify

- + Test and studies on ergonomics conducted in collaboration with the University of Florence.

Plus

- + High level of scientific validity thanks to our partnership with a prominent university.

ISO 9001:2015

What they certify

- + Compliance with the quality management system with UNI EN ISO 9001:2015 and the highest production standards.

Plus

- + Improvement of the Company's business processes.

OEKO-TEX® CLASS I

What they certify

- + A total absence of toxic substances that are harmful to man and to the environment.

Plus

- + Guaranteed environmental protection.

OEKO-TEX® STEP

What they certify

- + High standards and the application of Best Practice guidelines in the field of environmental, social, and production policy.

Plus

- + A business approach oriented to the use of eco-friendly technologies and products, the efficient use of resources, and the maintenance and development of sustainable manufacturing conditions.

Excellence
is here.

Excellence is here.

**All or nothing.
Settling for second best
is an expression that
simply doesn't exist
in your vocabulary.**

Superiority.
Mastery. Perfection.
You relentlessly pursue these
qualities in every aspect of
your life. Settling for anything
less than excellence is not in
your nature when you know
you deserve the best. That's
why you choose Magnifico.
With its exceptional mate-
rials, advanced technology,

and impeccable craftsman-
ship, it satisfies both your
mind and body. You made
the right choice by not set-
tling and always striving for
more. Even before falling
asleep, your mind is already
busy planning and orga-
nizing, eagerly anticipating
the best that tomorrow has
to offer.

MAGNIFICO

MAGNIFICO COLLECTION

MAGNIFICO

The top of the range by Magniflex.

The Magnifico collection brings together all the expertise of Italian artisanal tradition combined with the latest technologies and refined details.

The **Magnifico** collection is born out of the combination of state-of-the-art **technology** with a curated **selection of refined and elegant materials**. It was specifically designed for individuals who refuse to

compromise and seek nothing but the finest sleeping products. Made in Italy, the Magnifico collection offers unparalleled quality and craftsmanship that surpasses expectations.

Italian excellence.

MAESTRO.

Our classic **Maestro**, is a selection of models that perfectly combines the outstanding properties of natural raw materials like cashmere, linen, silk, and wool with those of more modern and high-tech materials.

AUDACE.

The **Audace** range of products has a modern appeal that combines state-of-the-art technology with external comfort.

Maestro Dual 14

The Magnifico collection brings together the excellence of traditional materials and the innovation of new technologies to deliver timeless comfort. With one mattress offering four different comfort combinations, it provides versatility to suit individual preferences. The combination of layers such as Mallow, Memoform, Aquabreeze, and Elioform allows for easily customizable comfort by simply removing the mattress cover. The **Airyform design** ensures breathability and provides differentiated support, **allowing air to circulate within the mattress for optimal heat and moisture dissipation**. The padding is crafted from **natural and highly breathable** fibers, while the mattress cover is made from **luxurious satin**. The result is a **Soft to Medium-Soft comfort** level that indulges your senses.

MAGNISTRETCH LINE

The best awakening
for your back.

Magnistretch

MAGNIFLEX

MAGNISTRETCH

Midnight Stretching

If it were up to you,
you would never sleep.
Walking, Running.
Being on the move.
That's your lifestyle and
your idea of wellness.

You enjoy **pushing your muscles and feeling your breath** as you engage in physical activities. Each day brings a new challenge for you to embrace. Your mind is constantly active, imagining, creating, and striving to reach new levels of performance. Staying still in one place isn't your preference. That's why

you choose MagniStretch. It **stretches your back while you sleep, providing a refreshing energy boost every night.** You almost feel grateful to the mattress, as if it were a teammate. As you slowly drift into sleep, you dream of new accomplishments, and wake up energized to the sound of "Ready! Set! Go!"

The mattress that stretches your spine.

Discover the innovative and patented MagniStretch mattress, which has been designed to meet your individual needs and provide a full energy boost.

Certified wellness

Developed in collaboration with the Department of Mechanical Engineering of the **University of Zaragoza**.

ANTONIO HERRERA RODRIGUEZ.

Emeritus Professor of Traumatology and Orthopedics. Coordinator of the Multidisciplinary Research Group at the Musculoskeletal Biomedical Research Center of Aragon. Researcher at the Research Institute I3A of the University of Zaragoza.

ENDORSED BY

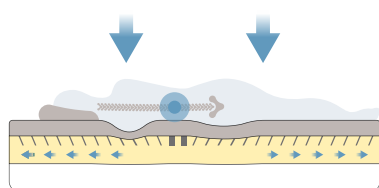

The most iconic **trade association of chiropractors in the United States** has **certified the beneficial effects of our MagniStretch mattress.**

MagniStretch is an exclusive Magniflex patent developed to provide remarkable benefits to your back.

How it works

1

It uses the **pressure applied by the body** and **distributes the weight across the entire mattress**. The titled sections move in opposite directions.

2

It gently **stretches the body and spine from the lower back area up to the neck** and **down to the feet**. The **space between vertebrae is increased** by its action.

3

It **helps relieve muscle tension and contractions, alleviating neck and back pain** and **improving blood circulation**.

MAGNIFLEX

MAGNISTRETCH

The complete response to your search for wellness.

Recharges the mind, and stretches the body. The only thing you'll need to think about is lying down.

MagniStretch will take care of the wellness of your body by stretching your back every night.

A mattress has never
been this regenerating.

WELLNESS FOR YOUR BACK.

The inner layers in **Eliosoft** and **Elioform** with Stretch design **ensure optimal support for your back.**

SENSATIONAL SUPPORT.

Differentiated support for the different parts of the body by distributing and balancing the weight across the entire length of the mattress.

IDEAL COMFORT.

The padding in **Memoform**, an anatomical material that **adapts to the shape of your body**, provides a pleasant sensation of lightness.

PERFECT MICROCLIMATE.

The mattress cover is made from **Outlast®**, a highly **breathable thermoregulating fabric** originally developed for the spacesuits of astronauts, and **Viscose**, an incredibly soft material that feels **silky to the touch** and which is also **breathable**. The **3D perimeter band** ensures greater perspiration to the mattress.

MagniStretch 12

The mattress that favors stretching of the spine.

The **chequered** and **stretching construction** ensures **differentiated zone support** and **stretching of the spine**, in addition to **ventilation** in the core of the layer. The three Elioform and Eliosoft layers ensure optimum support. The padding is made of **anatomical Memoform**. The cover, made of **soft viscose and temperature-regulating Outlast®**, absorbs excess heat and releases it when needed. It offers a **Medium-Firm comfort level**.

DOLCE VITA LINE

The perfect comfort
for each partner.

DOLCE VITA

Italian sleep quality that makes life a whole lot sweeter.

You say A, and your partner says B. You're calm while your partner is restless like a storm. Your color is white, while your partner's color is black. That's probably why you love each other so much.

Opposites, yet perfectly compatible. You both have unique personalities. Compromising is not part of your vocabulary as a couple, at least when it comes to sleeping. That's why you love Dolce Vita. With two different supports and a warm embrace, experiencing true bliss. It's no wonder you both wake up happy and satisfied.

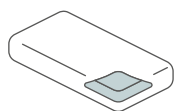

The italian rest that makes life sweeter.

DOLCE VITA

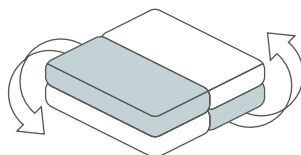

Thanks to Dual Core technology, the Dolce Vita collection guarantees perfect comfort without compromise.

How it works

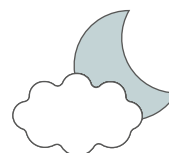

1

REMOVE THE
MATTRESS COVER.

2

CHOOSE YOUR COMFORT
SIMPLY BY TURNING
OVER THE LAYER.

3

ENJOY YOUR
WELLNESS BOOST.

UNCOMPROMISING COMFORT.

Two **separate inner layers** that **can be flipped** over to provide up to **4 different comfort** combinations depending on the type of desired support. There's the **soft** side, for a **gentler** and **cozier** support, and then there's the **firm** side, for a **sturdier** support.

SOFT – SOFT SOFT – FIRM FIRM – SOFT FIRM – FIRM

PRACTICAL.

Simply **remove** the mattress cover and effortlessly **flip over the layer** to choose your preferred **comfort level**.

PERFECT MICROCLIMATE.

The mattress cover is made from **Outlast®**, a highly **breathable thermoregulating fabric** originally developed for the spacesuits of astronauts, and **Viscose**, an incredibly soft material that feels **silky to the touch** and which is also **breathable**.

CERTIFIED GLOBAL RECYCLED STANDARD (GRS)

Certification is a guarantee that our products are made from **recycled materials** and in compliance with **environmental** and social requirements throughout all the steps of the manufacturing process.

Dolce Vita Dual 12

One mattress, 4 different comfort combinations.

The different combinations of layers in Memoform, Elioform, and Eliosoft offer **different comfort levels** that can be easily combined by removing the mattress cover and choosing your **favorite solution**. The **snug and anatomical Memoform** gets rid of any uncomfortable pressure points and stimulates blood circulation. The mattress cover is **soft, thermoregulating Outlast®** viscose that absorbs excess heat and releases it when needed has obtained **GRS** (Global Recycle Standard) certification. It offers a **Soft / Medium-Soft** comfort level.

A COVER

The **Outlast® thermoregulating fabric** creates the perfect microclimate at night; **Viscose fabric** that is soft to the touch. **GRS-certified**, eco-friendly fabric made from recycled raw materials.

B PADDING

Three different materials: **Hypoallergenic and breathable fiber** that provides added comfort during the night. **Memoform is an anatomical** material that perfectly adapts to the shape of your body. **Super Soft fiber**, soft and breathable to give you added comfort and hygiene while you sleep.

C COMFORT LEVEL

The **Dual Core system** gives you the **perception of a different comfort level** simply by **turning over the mattress interior**. The layer in **Memoform** (3 cm) **reacts to the weight of your body to perfectly adapt to your particular build**, thus offering a snug type of comfort and anatomical support for the whole body. The layer in **Eliosoft** (3 cm) high provides **optimal yet soft support to your back** without causing spine compression.

D BASE SUPPORT

The layer in **Elioform** (21 cm) provides **optimal and firm support to your back**.

Dolce Vita Dual 10

One mattress, 4 different comfort levels.

The different combinations of layers in Memoform and Eliosoft guarantee **different comfort levels** that can be easily combined by removing the cover and choosing the preferred solution. **Snug, anatomical Memoform** avoids pressure points and stimulates blood circulation. The cover, made of **soft viscose and temperature-regulating Outlast®**, which absorbs excess heat and releases it when needed has obtained the GRS (Global Recycle Standard) certification. It offers a **Medium-Soft / Medium-Firm comfort level**.

MagniCool
10 Firm

For the refreshment
of both the mind and body.

Staying fresh while you sleep is no longer just a dream.

The heat is your worst enemy. You love the freshness in all its forms. You like the feeling of the air on your face, the cool breeze on your skin.

If it also brings a shiver down your spine, all the better. Ideas are the same way; they're either super fresh or not even worth considering. Staying fresh is undoubtedly rejuvenating, keeping you young. That's why you choose

MagniCool. The gentle touch of the mattress, coupled with a refreshing breeze-like sensation, revitalizes you. It's like discovering a cool oasis in the midst of a scorching desert, only to realize it's not just a mirage.

MAGNICOOL

MAGNICOOL LINE

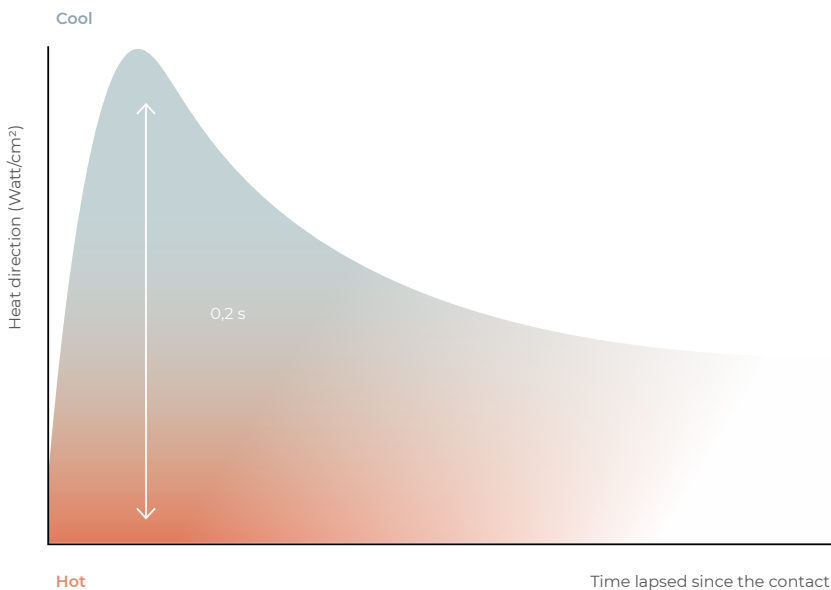

Do you suffer from the heat at night?

MAGNICOOL

MagniCool provides a sensation of unique freshness, like a gentle breeze, creating a sweet awakening that feels as soft as a cloud.

Q-MAX Test. This test measures the maximum heat loss when the skin makes contact with the fabric. The

arrow shows the maximum airflow through the fabrics (0.2 after contact). The higher the value, the more

intense is the sensation of freshness upon contact.

UNPARALLELED FRESHNESS.

Mattress **cover in MagniCool**, a fabric that is **fresh, thermoregulating**, and highly **breathable**.

IDEAL COMFORT.

One technology, **two different comfort levels**. Choose your preferred comfort between **soft**, for a gentler and **cozier support**, or **firm**, for a **sturdier support**.

FABULOUS SUPPORT.

The **multiple layers** that form the core of the **mattress ensure optimal support to the back**.

MagniCool 12 Gel Soft

To keep the mind and body cool.

The **innovative** and **exclusive MagniCool** cover fabric offers **unparalleled freshness** and also **promotes air circulation**, creating a **perfect microclimate** between the body and the mattress. The combination of the layers in Magnigel, Memoform, and Eliosoft layers offers **gentle, cozy, and cool support**. It offers a **Soft comfort level**.

CLASSICO COLLECTION

Only one way to
sleep: your own.

MAGNIFLEX

CLASSICO

Only one way to sleep: your own.

Let's start with the basics.
No trivial details for you.
You focus on the substance.
Of course, the eyes also
desire to be pleased, but it's
the quest for essentiality
that truly drives you, even
when you sleep.

That's why you choose Classico
- and why you'd choose it a
thousand times over, without a
shadow of a doubt, in the blink
of an eye. Because it adapts to
you as if it already knew you.
It knows how to provide firm
support when you need it and

how to offer snug comfort
when you're seeking cuddles.
It's not just a mattress; it's a
friend, a reliable one, simple yet
with plenty of stories to share.
Stories that always know how
to uplift your spirits.

CLASSICO

Quality is a Classico.

The Classico collection is a selection of our historical comfort solutions that over the years have satisfied the needs of millions of customers.

The mattresses of the **Classico** collection provide **optimal support** and ensure **maximum durability** thanks to the te-

chnologies applied to design them. They come in three categories: **Massaggio**, **Riposo** and **Sonno**.

Only one way to
sleep: your own.

MASSAGGIO.

The **Massaggio** models are intended for those seeking a **firm support** for their back without having to compromise maximum relaxation. Thanks to the presence of **Memoform** and the padding with **massaging effect**, these models provide an added touch of **super-snug comfort**.

RIPOSO.

The **Riposo** models are ideal for anyone who prefers a more **firm support** for the back, combined with the comfort of a **breathable cover**.

SONNO.

The **Sonno** models represent the collection with springs designed for those who of you who want an **ergonomic support** for the whole body.

Massaggio Comfort Plus

Extra comfort, thanks to the direct contact with the benefits of Memoform.

Like a cozy embrace that accompanies you through the night. This is because **snug, anatomical Memoform** molds itself perfectly to the body's silhouette, avoiding pressure points and **stimulating blood circulation**. The layer in Elioform guarantees optimum support. The cover is in **soft viscose**. It offers a **Soft comfort level**.

Pillows

PILLOWS

A pillow for every need

Over 30% of your experience
of being well-rested depends
on your pillow.

Without proper support for your head and neck, you may be at risk of experiencing discomfort in your back, neck, and upper limbs. **Therefore, selecting the right pillow is crucial,** and experts recommend replacing it, on average, every 12 to 18 months. When making this decision, it's important to consider the position in which you typically sleep.

On your back

Considered the healthiest sleeping position, it provides neutral support for the neck, head and spine.

A

B

On your side

74% of people sleep on their side, making this the most common sleeping position.

Sleeping face down

One almost flat, soft pillow and a second pillow to be placed under the belly to prevent neck pain.

Virtuoso Mallow
Standard

Virtuoso
Soft

The **Virtuoso** pillow line is synonymous with an outstanding quality thanks to the exclusive materials used to manufacture them and the embroidered fabrics with elegant finishes. These pillows are designed for those who love quality sleep, but also nice things in life.

Sleep with elegance

The Virtuoso pillows, **decorated with an elegant lily, the symbol of the City of Florence**, contain precious materials and unique natural fibers which guarantee a perfect rest.

Stylish materials for every night of the week

The cover in **viscose** rayon combines the properties of viscose, which is **incredibly soft and silky to the touch, with the qualities of satin**, a shiny and elegant material. Together, they have an excellent ability to dissipate sweat, making the pillow remarkably breathable. The **soft** and **light goose feathers** have excellent thermal capacity. The layer with extracts of **mallow** provides a soft and comfortable support.

ABBRACCIO

The **Abbraccio** line of pillows is the perfect companion for when you dream at night and will provide all the tenderness of a warm embrace.

The sweetness of a hug

The layer in **Memoform** adapts to the shape of the head and-neck, **relaxing any muscle tension** you've built-up during the day. The **viscose** cover, which is incredibly soft and silky to the touch, **favors breathability**.

Technology designed specially for you

The **breathability** of these pillows ensures a **high level of freshness** and lightness by allowing the air to continually flow inside of them.

Sushi

Sushi is ideal for those who want to have their own pillow with them wherever they go, even during trips or on a holiday, simply by rolling it up and shrinking its size to turn the pillow into a carry-on item.

Materials have just become super-small

The layer of **Memoform** in the pillow conforms to the shape of your head and neck, relieving any muscle tension accumulated throughout the day. The **viscose** cover is exceptionally soft and silky, **promoting breathability**.

How it works

To store the pillow, simply **roll it upon itself**, secure it with the special Velcro closure, and place it in the convenient bag provided.

BED FRAMES

The experts of luxury sleep present the innovative models of bed frames.

Comfort for everyone

The technology featured ensures the best support for all your needs.

Technology meets ingenuity

The extraordinary flexibility of the materials used to manufacture these bed bases provides a customized support and always a perfect comfort.

MAGNIFLEX

Ergo

ERGO TRE

The essence of nature

Ergo Tre bed frames are composed of a **silver beechwood structure** and **ergonomic plates** that allow the weight to be evenly distributed. The **plates make it easy to customize the shape of the frame** so your body weight always gets **perfect support** for a **rejuvenating sleep**.

Tre

Ergo Tre electrical

The **Ergo Tre electrical**, adjustable base created by Magniflex, consists of a structure in silver beechwood and ergonomically shaped plates that help to distribute the body's weight evenly on the

entire surface. Thanks to the electrical control unit, this version of the adjustable base allows you to adjust the height of the upper and lower body separately. Certified Medical Device.

Ergonomic plates
for differentiated
support of the body

A SUPPORTING FRAME

The **plates distribute the weight evenly** over the entire surface occupied by your body while lying down and special shock **absorbers respond to the body's** weight based on key pressure points. The **firmness adjusters** on the plates allows you to adjust the firmness of the adjustable base based on your individual preferences, so that you have adequate support and can enjoy a refreshing and rebalancing rest. Thanks to the **double joints** and the handy **remote control**, you can independently adjust the height (**and therefore type of comfort**) of the **head, shoulders, torso and legs**.

B MATTRESS RETAINERS

The **retainers fitted at the bottom of the adjustable base keep the mattress from sliding** when you adjust the height of the feet or head.

C MOTOR UNIT

The motor built into each adjustable base allow it to easily **lift up to 110/120 kg**. The motor also allow you to **separately adjust the height of the head and legs**.

D PERIMETER STRUCTURE

The adjustable base consists of a **silver-colored beechwood structure**. The height of the frame is 7x2.5 cm. In addition, there is a **bumper** around the rounded corners to smoothen out the hard edges and protect the shins.

E SUPPORT LEGS

The single and double versions are supported by 4 **legs**, each **30 cm high**.

Who is it designed for?**Passionate readers**

All you need to do is just lift your head up to enjoy your book properly.

**Super athletic**

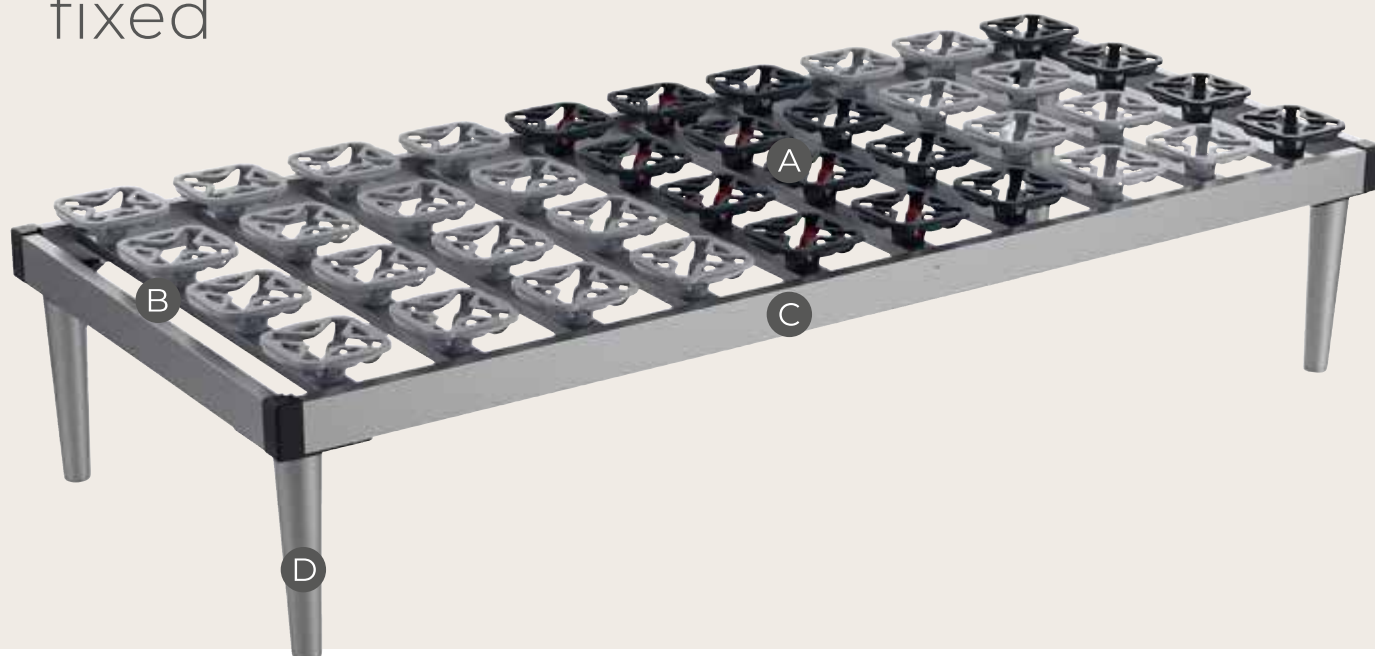

To relax the muscles of your legs, it's suggested to keep them a bit higher up.

**Ergonomics enthusiasts**

The position of the stiffness adjusters eases the load on your spine.

Topper

The **topper** provides exceptional support, enhancing the comfort level of your mattress while also adjusting its firmness for optimal relaxation. For extra comfort.

Change the feel of your mattress

Sometimes it only takes a little **to improve the feel of your mattress**, for example, **by using a Magniflex topper**. Choose the topper you like best; the **breathable** or **antiviral natural materials** from which they are made are guaranteed to **provide added comfort while you sleep**. The **goose feather** and the goose down maintain the microclimate around the body. The **goose down**, thanks to its **extra soft** texture, offers maximum volume and lightness. The **durable and hypoallergenic Rolloboules fiber** provides ultra-soft, 'feather-like' comfort.

Comfort and simplicity

Place the topper on the mattress and secure it with the **four practical elastic corners**. You will be lulled by their incredible softness. In addition, they are all **perfect for all types and heights of mattresses**.

Magniflex has created a line of **exclusive mattress covers** with special characteristics.

MATTRESS COVERS

Technology meets nature

Choose a **mattress cover** with **Outlast® technology** to regulate your body temperature and ensure a **perfect microclimate** for rest, or **antiviral fabrics** that **inhibit the proliferation of viruses and bacteria**. The natural **Aloe Vera** cover allows **breathability**, preventing perspiration. The delicate quilting creates a pleasant softness on contact.

Security is wellbeing

Totally **natural** or **technologically** advanced, our models maintain the ideal temperature when you are asleep and ensure decreased perspiration or a **healthy environment that helps to prevent allergies**. All the models feature perimeter rubber bands that fit perfectly to the mattress and are easily machinewashable.

The topper in **Outlast®** is just what you need to **protect your mattress** and create the perfect climate throughout the night while you are asleep, thanks to its temperature-regulating fabric.

Made of a **temperature-regulating fabric cover in Outlast®** which is **highly technological** and **breathable**. This material adjusts to the body's temperature, ensuring the ideal microclimate when you rest. The topper also features a rubber band all around the edges, perfectly adapting to the mattress.

The **MagniProtect Plus mattress cover** is the **perfect product to protect your mattress**, thanks to the exclusive MagniProtect fabric, which ensures **effective protection against viruses and bacteria** while you sleep.

Made with a **MagniProtect fabric cover**, which is designed to **inhibit the growth and persistence of bacteria and viruses on fabrics** that would otherwise risk acting as a surface for the propagation of pathogens. The mattress cover features a elastic band that perfectly adapts to the corners of the mattress.

MagniProtect Extra Plus mattress cover, perfect to **protect even the thickest mattresses**. Thanks to the exclusive MagniProtect fabric, it offers an **effective protection against viruses and bacteria** every night. Ideal to protect even the thickest mattresses, up to 45 cm high, the MagniProtect Plus Extra Mattress

Cover is made with an **antiviral fabric that inhibits the growth and persistence of bacteria and viruses**. Elastic corners to fit the mattress cover perfectly on the mattress.

EXTRA	Adapts to several mattress sizes

The topper in **Waterproof Sponge** is just what you need to **protect your mattress** from moisture, ensuring maximum dryness.

Made of a **waterproof sponge cover**, this topper is **hypoallergenic** and ensures the **highest level of comfort**. It also features a rubber band all around the edges, perfectly adapting to the mattress,

The mattress topper in **Aloe Vera** is perfect for **protecting your mattress**, as well as adding a greater air passage and all the **benefits of Aloe Vera extracts** for a more relaxing sleep.

Consisting of a quilted **cover**, with an essence of **Aloe Vera**, having **regenerating properties**. The breathable fabric allows the passage of air avoiding any heat trapped in the mattress. It features an elastic outer edge which perfectly adapts to the mattress.

The **mattress-binding strap allows** you to **combine two single mattresses to form a king-size bed** with virtually no effort.

A romantic couple is shown sleeping in a bed. The man is on top, wearing a grey t-shirt, and the woman is on the bottom, wearing a purple top. They are both smiling and appear to be in a deep sleep. The bed has a large, white, tufted headboard. The bedding consists of white sheets and a white duvet with a wide, light brown stripe running diagonally across it. The pillows are white with a light brown stripe. The overall atmosphere is cozy and intimate.

Duvets Cover

Fluffy down, thermal and breathable fibers are combined in our Magniflex **duvet covers** to suit all seasonal needs.

Perfect warmth for your dreams

The various models can be **easily combined** to achieve a level of **comfort calibrated for the warmer seasons** or for very cold winters. An enveloping embrace for all kinds of temperatures.

Security is wellbeing

Totally natural, our items in natural **down feathers, down padding**, and **down fill** are **coated in cotton and maintain an ideal temperature while you sleep**. The **down fill**, smaller than the feathers, **add greater softness**. The down padding, thanks to its **ultra-soft** consistency, offers exceptional lightness and volume for a comfort that embraces. The **lightweight and voluminous recycled fiber, derived from recycled plastic**, boasts excellent qualities of softness and breathability.

DUVETS COVER
